**Experienced Liquid Handling Robot Engineer**  
**Salt Lake City, Utah**

**ABOUT SORENSON FORENSICS**

**Quality**

Our laboratory is equipped with the most advanced instrumentation for serological screening and forensic DNA analysis providing a streamlined throughput while maintaining unparalleled DNA quality. Our data package has excellent ease of review that can be tailored to a client's specific needs.

**Reliability**

Our scientific team has never missed a 60-day turnaround time deadline for outsourced DNA casework. We have a highly sophisticated in-house Laboratory Information Management System (LIMS) to monitor all specimens through the entire laboratory process, ensuring complete chain of custody.

**Experience**

Our forensic team has decades of public and private forensic laboratory experience. Our analysts are highly experienced with all aspects of forensic DNA testing, including interpretation of complex mixtures, Y-STR analysis, Mini-STR analysis and mtDNA Sequencing.

**ABOUT OUR VALIDATION SERVICES**

Our Validation Services include the validation of serology, extraction, quantification, and amplification procedures (STR and Y-STR), as well as instrumentation, robotics and process flow efficiencies. Our services are available to assist a crime laboratory in performing comparison studies between or among multiple extraction methods and multiple STR Amplification kits and validating liquid handling robots to improve crime lab efficiencies. Sorenson Forensics staff is highly experienced in performing these types of validations, helping to validate several public crime laboratories and two national vendor laboratories. Additionally, our Laboratory Director served on the SWGDAM Subcommittee for Validation. Sorenson Forensics follows all SWGDAM, ISO and ASCLD/LAB recommended guidelines for forensic validation.

**MINIMUM QUALIFICATIONS**

Bachelors Degree in Engineering, Physics, Biology, Bioinformatics or related technical field. Knowledge of biotech laboratory equipment, especially liquid handling robots, and molecular biology methods. Must be willing to travel approximately 25% - 50% to a public crime laboratory for validation services assignment. Assignments will typically last 4 weeks in a row. We will fly you home or to any major city in the continental U.S. every weekend.

**PREFERRED QUALIFICATIONS**

Eighteen months or more experience working in a forensic DNA laboratory performing forensic casework.

**APPLY NOW:** Send your CV, college transcript(s) and salary history to: [jobs@sorensoncompanies.com](mailto:jobs@sorensoncompanies.com) or contact our Laboratory Director Timothy Kupferschmid at 801-462-1459.
