American Society of Crime Lab Directors Crime Lab Minute

General Announcements

President's Message

There were two major developments to report this week.

ASCLD Webinar Series

Beginning in December, several of our most qualified and esteemed ASCLD members will be presenting a series of seven webinars addressing the factors involving crime laboratory backlogs. This will be the first time that our organization has committed to such an endeavor and I want to recognize ASCLD Board of Director Adam Becnel and ASCLD members John Collins, Cecelia Crouse, Brian Gestring and Beth Kroupa for their effort in putting this material together. I'm also deeply grateful for the support from RTI International whose assistance will be critical to the success of this event.

Our first broadcast is scheduled for **Wednesday, December 4, 2013**, so be sure to sign up soon! Follow the link to register and learn more information:

Feedback to NIST regarding Guidance Groups

I'd like to thank the advocacy group and those members who provided perspective to them in regards to NIST's Federal Register request for input on "Possible Models for the Administration and Support of Discipline-Specific Guidance Groups for Forensic Science". It can be a challenge to put together a consensus document that provides enough detail for implementers as well as less technical policymakers. My hope is

Call for Workshops, Presentations and Posters!!

I'm excited to announce that President Elect Brady Mills and the Symposium Planning Committee are releasing the 2014 ASCLD call for presentation abstracts. The theme for this year's meeting is "The Efficiency of Quality". If you've got an idea for a workshop, the plenary session or poster, please download the form below and return by **December 16, 2013**.

[2014 ASCLD Symposium Abstract Form](#)

Speaking of the meeting

The planning committee still has room for volunteers. Your degree of participation can be very flexible with opportunities ranging from working a shift at the registration table to running the meeting's plenary session. How much time you commit is up to you! If you're interested, please contact President Elect Mills at brady.mills@dps.texas.gov.

We will be electing new members to the Board of Directors at the business meeting to be held at the Symposium. If you or someone you know is a regular member and is interested in becoming a candidate for the ASCLD Board, please contact Sabrina.Cillessen@DFS.Virginia.gov

that this document accomplishes both goals.

Calibrate, Inc. founded the pipette calibration industry in 1983 and remains North America's leader in the business. No one knows pipettes better. ISO 17025 Accredited since 2004 (by the American Association of Laboratory Accreditation, or A2LA, a signatory to the ILAC MRA), our focus is on quality.

We work nationwide and in eastern Canada, either on-site or in one of our three mail-in laboratories.

Pipette service is available for all makes and models of pipettes as well as bottle-top dispensers and pipet-aids. We offer an extended warranty on all parts and labor, and are known for delivering high quality work and excellent customer service. We solve problems. It was for these reasons that we were recently chosen by Business Leaders magazine as a 2009 Business Champion.

consent.

Training

The **West Virginia University Forensic Science Initiative** invites you to utilize their FREE webinar series on a variety of topics in forensic science! Experts in the field will present on a wide range of forensic science topics from the reliability of eye witness identification to fire scene investigation. Sign up now for the Texas Forensic Science Commission: Justice Through Science presentation. Follow the [link](#) for a list of upcoming webinars.

Try your CSI skills at the Basic Crime Scene Investigation for Legal Professionals course at West Virginia University's forensic crime scene complex. This four day course will offer hands-on training specifically for the legal professional. Learn how to properly identify, collect, and preserve evidence at a crime scene. To better assist each student, class seating will be limited. For more information, click [here](#).

RTI International's Center for Forensic Sciences Continuing Education is pleased to offer a second premium online course for legal professionals, titled "*Managing Quality and Reliability in the Crime Laboratory: A Lawyer's Perspective*". This low cost training was developed with the support of ASCLD/LAB, the North Carolina District Attorney's Association and the National Association of Prosecutor Coordinators. This course is designed for legal professionals who interface with scientific experts and/or present scientific evidence in courts of law. The course provides information about how accredited crime laboratories control quality, ensure the reliability of results, and work to maintain a high level of customer satisfaction and confidence in the reliability of laboratory services. It is recommended, but not required, that users have taken the course; An Introduction to the Crime Laboratory -

forensics@pipetpeople.com for more information about how our quality pipette services can help you create a bullet-proof pipette calibration program at your facility today.

Understanding its Role and Purpose before attempting this course.

By the end of this course, you should be able to:

- Evaluate the work of a scientific expert
- Name the two types of scientific analyses
- Name the international body that governs crime laboratory accreditation
- Recognize authoritative documents and court rulings critical to forensic science
- List five warning signs signaling problems in a crime laboratory

If you know of a legal professional who may be interested in taking this course, please direct them to: <https://www.forensiced.org/training/viewcourse.cfm?moduleid=fdf2f9c6-4d9e-4e7c-a6fd-c5301474a49d>. In some states, this course has been approved for 1 hour of CLE and MCLE credits (<https://www.forensiced.org/training/clestates.cfm?cid=1128152721>).
