## American Society of Crime Lab Directors Crime Lab Minute

### General Announcements

Dear Colleagues-

#### Visiting our sponsors...

It wasn't too many years ago, as you may recall, when our organization was struggling to financially stand on its own. Today, I'm pleased to report that we have achieved a measure of conservative financial independence which has been due, in part, to the development of symbiotic partnerships with laboratory vendors. We're very fortunate to receive their support and I'm grateful that they recognize us as worthy of investing time, money and effort.

So, please, if you haven't already done so, click on the link(s) in the Crime Laboratory Minute and visit our vendor gallery. Check out their websites and show them our support!

Thanks and have a great week.

Jay Henry  
ASCLD President

#### International Initiatives

The International Forensic Strategic Alliance (IFSA) has created a survey to determine how it can add value to your network. Thank you for taking the time in answering this survey which includes 18 questions. Your answers will help IFSA define a strategic plan for meeting the needs of your organization. Please click on the link below to start the survey

<http://surveys.questionpro.com/a/t/AGGeDZPwOB>

The National Institute of Forensic Science/Australia  
New Zealand Policing Advisory Agency is

conducting a study on manufacturer DNA contamination. A survey ([download the spreadsheet form here](#)) has been developed which will capture information to map out the issue and identify possible sources and points of product contamination. The results will be used in the development of the ISO Standard "Minimizing the risk of human DNA contamination in products used to collect and analyze biological material for forensic purposes". Preliminary results will be presented at ISFG in September and full results will be presented at the ISO PC/272 Meeting in February.

Please send your responses to Dr. Linzi Wilson-Wilde, General Manager at NIFS by August 21, 2013 if possible.

### **Marshall University DNA Technical Assistance Program for 2013**

Please see the [flyer](#) and [request form](#) or contact Pam Staton at [staton1@marshall.edu](mailto:staton1@marshall.edu) or 304-691-8962 for more information.

### **Trace Evidence Training Needs Survey**

The Forensic Science Initiative at West Virginia University is surveying forensic science practitioners to see if there is any interest in the need for trace evidence training. We are hoping to provide training courses in a variety of trace evidence areas, but first we need your help in determining what type of training is needed in this area.

When answering the questions in the survey please be as specific as possible so we can provide you with the type of courses that are needed. The survey can be found at the following web address:

<http://www.surveymonkey.com/s/6XHSKJW>. The survey will be open until October 11, 2013. We thank you for taking the time to participate in the

[Bode Technology](#) provides advanced forensic solutions offering crime labs ways to reduce their workloads and budgets.

Bode's solutions include [BodeDirect™ Outsourcing](#) and [Same-Day DNA Service™](#), and the [Bode Buccal DNA Collector™](#), a direct collection system, reduces processing time, saving money for crime laboratories.

Bode's newest offerings include: [BodeLIMS™ – The First True Forensic DNA LIMS](#). BodeLIMS is a web-based LIMS that tracks samples from receipt through reporting. The software documents and captures the entire DNA analysis process and is completely configurable, thus adaptable to changing technologies. [Bode LeanLab™](#) service utilizes Lean Six Sigma principles and delivers custom solutions to forensic labs improving efficiency, increasing throughput, reducing turnaround time and eliminating backlogs. Visit [www.bodetech.com](http://www.bodetech.com) or email [bode.service@bodetech.com](mailto:bode.service@bodetech.com) for more information.

survey. For more information or questions, contact us at [FSI@mail.wvu.edu](mailto:FSI@mail.wvu.edu).

## Advocacy

The [CFSO newsletter](#) for September 2013 and a [letter](#) from CFSO to Attorney General Holder are now available for your review.

## News Around the Globe

## Loyola University New Orleans

Designed in response to the growing need for leadership in forensics, the Forensic Science Administration specialization of the Master's in Criminal Justice Administration (MSCJA) prepares you with the advanced skills needed to lead forensic labs and crime scene investigation departments from the crime scene to the courtroom.

Topics of study include:

- Develop an advanced understanding of operations, management and administration
- Bridge the gap of understanding between scientists and laypersons, judges and lawyers
- Learn the role of ethics in forensic science, including general principles and training requirements
- Learn effective techniques and communication skills to improve expert testimony

Sorenson Forensics provides forensic DNA casework services for federal, state and local crime laboratories; law enforcement agencies; and assists Officers of the Court in individual criminal cases. Sorenson Forensics is a unique private forensic DNA laboratory. We are built upon a foundation of collaborative forensics with law enforcement agencies, advanced lab technology and our unique experience. More than 500 law enforcement agencies have turned to Sorenson Forensics for individual casework and DNA testing services. We provide comprehensive biological screening, including:

DNA testing has taken dangerous criminals off the streets, solved decades-old homicides, exonerated the falsely accused and freed the wrongly imprisoned.

blood, semen, and saliva identifications. We also offer Y-screening (using Plexor HY), a more sensitive alternative to traditional screening that directly detects the presence of male DNA. Sorenson Forensics scientists and technicians have extensive public lab work experience, creating an environment empathetic to the issues which public labs face. Our veteran team with combined public and private lab work history have decades of forensic DNA experience and have completed thousands of individual cases. Some of the highest profile cases in the country have been sent to the Sorenson laboratory because of this unique expertise. The growing reputation for excellence has spread internationally with a world-wide clientele now using Sorenson Forensics. <http://sorensonforensics.com>

**Calibrate, Inc.** founded the pipette calibration industry in 1983 and remains North America's leader in the business. No one knows pipettes better. ISO 17025 Accredited since 2004 (by the American Association of Laboratory Accreditation, or A2LA, a signatory to the ILAC MRA), our focus is on quality.

We work nationwide and in eastern Canada, either on-site or in one of our three mail-in laboratories.

Pipette service is available for all makes and models of pipettes as well as bottle-top dispensers and pipet-aids. We offer an extended warranty on all parts and labor, and are known for delivering high quality work and excellent customer service. We solve problems. It was for these reasons that we were recently chosen by Business Leaders magazine as a 2009 Business Champion.

[Forensic odontology department plays key role in solving crime cases](#)

## Training

No-cost, NIJ Medicolegal Death Investigation online training program. The information available online at: <http://www.nfstc.org/apply-now-for-online-medicolegal-death-investigation-course/>

The **West Virginia University Forensic Science Initiative** invites you to utilize their FREE webinar series on a variety of topics in forensic science! Experts in the field will present on a wide range of forensic science topics from the reliability of eye witness identification to fire scene investigation. Sign up now for the Texas Forensic Science Commission: Justice Through Science presentation. Follow the [link](#) for a list of upcoming webinars.

Try your CSI skills at the Basic Crime Scene Investigation for Legal Professionals course at West Virginia University's forensic crime scene complex. This four day course will offer hands-on training specifically for the legal professional. Learn how to properly identify, collect, and preserve evidence at a crime scene. To better assist each student, class seating will be limited. For more information, click [here](#).

[ASCLD-LAB Training](#) Training classes to help forensic laboratory personnel understand the requirements of *ISO/IEC 17025 General Requirements for the Competency of Testing and Calibration Laboratories*.

**Cal State Fullerton Certificates in Crime & Forensics.** Contact Veronica Martinez at 1-657-
