General Announcements

President’s Message

Dear Colleagues:

I’m pleased to announce that the ASCLD Scholarship Committee recommended $1000 awards to two students: Anastasia Brown and Katelyn Jackson. Both Anastasia and Katelyn are attending forensic science programs in Texas. These students successfully competed with a pool of other well qualified applicants. Each will receive a check for $1000 that can be used for the upcoming 2014/2015 school year. Congratulations Anastasia and Katelyn!

A special thanks to ASCLD member Tracy Birch and her fellow committee members for reviewing all of the exceptionally qualified students and their application materials.

CSFO has joined the social media world and is now on Twitter! ASCLD and CSFO have both started using Twitter to keep all of our stakeholders, media, legislative offices, and members informed. CSFO can be followed at @CFSO1 and ASCLD can be followed at @ascld_ (with the underscore).

Forensic Science Week is coming up fast. Take a moment and check out the website. This truly is a great opportunity to raise awareness of the great work that you do for the public.

Brady Mills
ASCLD President

DNA Mixture Interpretation Study

The ASCLD Forensic Research Committee supports the NIJ-funded DNA Mixture Interpretation Study coordinated by the Center for Advanced Forensic DNA Analysis (CAFDA) is pleased to announce the Genome ID Forum 2014 - Emerging Forensic Genomic Applications; a conference to take place on September 9 and 10 at the Hilton Greenville, North Carolina. Genome ID Forum brings together thought leaders from forensic science, research, academy, law and technology development for an open on-going dialogue regarding emerging science, technology applications and adoption by the forensic community. Roundtable Discussions led by each day’s speakers and other invited guests will provide a meaningful exchange of ideas and include Dr. Bruce Budowle, Executive Director of Institute of Applied Genetics; University of North Texas Health Science Center, Fort Worth TX. To foster open discussions, space is limited. Click Here to Register for Genome ID Forum 2014.

GC/MS/MS Speed, Sensitivity, and Selectivity Beyond Comparison

Triple quadrupole GC/MS/MS has emerged as a powerful technique for trace-level analysis of drug residues. Shimadzu’s GCMS-TQ8030, providing exceptional sensitivity, selectivity, and specificity for detection and quantitation of targeted drugs in the presence of background
by the Defense Forensics and Biometrics Agency and all interested laboratories are encouraged to participate. The purpose of this study is determine the variation that occurs in interpretation of DNA mixtures in 2-, 3-, and 4-person mixtures. Variations in allele calls will be evaluated intra- and inter-laboratory and allele calls will be evaluated both pre- and post-technical review. Participants will analyze five DNA mixture datasets that vary in the number of contributors and contributor ratios. Interpretations will be made using the laboratory’s Standard Operating Procedures but with the thresholds provided based on the validation of the instrumentation used to generate the data set. Participants will receive the data in the form of .fsa files. The study will use quantifiable metrics to evaluate the participant’s ability to identify the number of contributors, estimate the ratio of mixture components, evaluate the accuracy of the allele calls in each mixture, and examine the variations in the final statistics generated for the reported interpretations. The study is designed to take no more than 4 hours. Currently, eleven labs are participating.

To sign up, please email Roman Aranda at roman.aranda3.ctr@mail.mil. Please use “DNA Mixture Interpretation Study” in the subject line. Registration closes August 29, 2014 with all data to be returned to Dr. Aranda by September 29, 2014.

**REGISTRATION IS NOW OPEN: Bode’s 2014 DNA Technical Conferences**, providing DNA training on the latest techniques and technologies to the forensic scientific community.

**Bode Technology** provides advanced forensic solutions offering crime labs ways to reduce their workloads and budgets.

Bode's solutions include **BodeDirect™ Outsourcing** and **Same-Day DNA Service™**, and the **Bode Buccal DNA Collector™**, a direct collection system, reduces processing time, saving money for crime laboratories.

Bode's newest offerings include: **BodeLIMS™ – The First True Forensic DNA LIMS**. BodeLIMS is a web-based LIMS that tracks samples from receipt through reporting. The software documents and captures the entire DNA analysis process and is completely configurable, thus adaptable to changing technologies.

**Bode LeanLab™** service utilizes Lean Six Sigma principles and delivers custom solutions

A2LA courses are designed with forensic professionals in mind, including a new courses to be hosted in Minnesota this September on ISO/IEC

**Criminalist I – Firearms**, Oakland Police Department, Oakland, CA, Expires: August 8, 2014

**Criminalist II Firearms Examiner Specialty**, Oakland Police Department, Oakland, CA, Expires: August 8, 2014

**Crime Scene Investigator**, Independence Mo Police Dept., Independence, Missouri, Expires: July 25, 2014

**Forensic Scientist – Toxicology**, Virginia Department of Forensic Science, Richmond, VA, Expires: August 4, 2014

**DME Section Supervisor I**, Texas DPS, Austin Texas, Expires: July 21, 2014

**Forensic Analyst – Biology-DNA**, Houston Forensic Science Center, Houston, TX, Expires: September 30, 2014

**Latent Print Examiner**, Houston Forensic Science Center, Houston, TX, Expires: September 30, 2014

**Quality Specialist**, Houston Forensic Science Center, Houston, TX, Expires: September 30, 2014

**Forensic Scientist I or II**, LVMPD, Las Vegas, NV, Expires: September 3, 2014

**Forensic Scientist III**, Scottsdale Police Department, Scottsdale, AZ, Expires: July 20, 2014

**Forensic Scientist III**, Scottsdale Police Department, Scottsdale, AZ, Expires: July 20, 2014

**Forensic Scientist-Chemistry**, Justice, Missoula, MT, Expires: July 25, 2014
17025 and 17020. See the below link for a full listing with dates and topics.

http://www.a2la.org/training/course_schedule.cfm

The ANSI-ASQ National Accreditation Board/FQS offers 2 workshops for accreditation preparation to the forensic community.

- ISO/IEC 17025 and Audit Preparation Workshop for Forensic Test Agencies

  Attendees of this three-day workshop will obtain a general overview of ISO/IEC 17025 as it relates to forensic test agencies. All of the elements will be reviewed. The standard’s applicability, origin, purpose and marketplace will be discussed. Some of the more important concepts will be reviewed such as document control, internal auditing, proficiency testing, traceability and measurement and method witnessing.

  September 22-24, 2014, Alexandria, VA

- ISO/IEC 17020 and Audit Preparation Workshop for Forensic Police Agencies

  Attendees of this two-day workshop will obtain a general overview of ISO/IEC 17020 for forensic police agencies. Individual elements of the standard will be reviewed; the standard’s applicability to forensic police agencies, origin, purpose and marketplace will also be discussed. Some of the more important concepts, such as document control, internal auditing, proficiency testing, traceability and measurement, and method witnessing will be reviewed.

  September 25-26, 2014, Alexandria, VA

For more information about these workshops, contact FQS at 703-836-0025, ext 208. To register, please click on any of the dates above.

**ASCLD-LAB Training**

Training classes to help forensic laboratory personnel understand the requirements of ISO/IEC 17025 General Requirements for the Competency of Testing and Calibration Laboratories.

**Conferences**

- Forensic Scientist – Forensic Biology, Virginia Department of Forensic Science, Roanoke, VA, Expires: August 31, 2014
- Forensic Scientist – Latent Print Examiner, DuPage County Forensic Science Center, Wheaton, IL, Expires: July 25, 2014
- Forensic Scientist, Fort Worth Police Department, Fort Worth, Texas, Expires: August 30, 2014
- Firearms Examiner, Houston Forensic Science LGC,INC., Houston, TX, Expires: August 12, 2014
- Lead Forensic Scientist (DNA), DC Government/Department of Forensic Sciences, Washington, DC, Expires: July 31, 2014

August 11-15, 2014: The 2014 Annual General Meeting of the American Society of Questioned Document Examiners (ASQDE) will be held in Honolulu, Hawaii. The meeting will be a joint meeting with the Australasian Society of Forensic Document Examiners, Inc.

George Mason University's Office of Continuing Professional Education in Virginia is hosting a 2-day seminar: Sexually Violent Crime: The Body as Evidence Taught by Dr. Henry Lee and Dr. Leah Bush

November 3-4, 2014

Sexually violent crime continues to challenge investigators and concern the general public. It has been estimated that every two minutes, someone in the United States is sexually assaulted. In many cases, sexual assault results in homicide. Dr. Henry Lee and Dr. Leah Bush, two of the country's top forensic scientists, will share their individual and collective expertise to help the participants understand the importance of the body as evidence as it relates to sexually violent crimes.

Please visit our course page at http://www.ocpe.gmu.edu/programs/legal/cold_case.php for more information on this exciting opportunity to learn from two of the top forensic scientists in the country!

Forensic and Investigative Science Outreach is pleased to provide quality, continuing education courses for forensic professionals. We would like to announce several on-site courses which will be offered for FREE at West Virginia University in Morgantown, West Virginia. Please feel free to visit our website for additional registration information and to share this information with other interested individuals.

Continuing Education Courses – Summer 2014

Characterization and Comparison of Dyed Fibers

This course will introduce students to the forensic examination of dyed fiber evidence. The course will cover background information on dyed fibers, polarizing light microscopy, comparison microscopy, dichorism, Raman spectroscopy, Microspectrophotometry and Thin Layer Chromatography (TLC). Students will then gain hands on experience looking at dyed fibers under the microscope and analyzing them using, Raman spectroscopy, Microspectrophotometry, and Thin Layer Chromatography. Students will also be introduced to the notions on evidence interpretation as well as the Bayesian approach.

September 23-26, 2014: Southern Association Forensic Scientist (SAFS) Annual 2014 Meeting in Savannah, GA.

October 19-23, 2014: 36th Annual Southwestern Association of Forensic Scientists (SWAFS) in South Padre Island, TX.

November 3-6, 2014: Annual DNA & Investigators Workshop– Bode Mid-Atlantic in Crystal City, VA
Introduction to Firearm Examination

This training course will cover the basic duties and necessary knowledge for firearm examiners. Hands-on examination of firearm components along with microscopic comparisons and firearm classification will be discussed and demonstrated. This course will give students a basic understanding of firearm examination techniques and as well as a list of reliable resources to use in a laboratory setting.
Crime scene investigators, evidence technicians and novice firearm examiners who wish to enhance the student’s understanding of firearm examinations are encouraged to register for this course.

Dates: July 28-30, 2014
Instructor: Keith Morris, PhD
Location: Oglebay Hall- Downtown Campus

RTI International's Center for Forensic Sciences Continuing Education is pleased to offer a second premium online course for legal professionals, titled “Managing Quality and Reliability in the Crime Laboratory: A Lawyer’s Perspective”. This low cost training was developed with the support of ASCLD/LAB, the North Carolina District Attorney’s Association and the National Association of Prosecutor Coordinators. This course is designed for legal professionals who interface with scientific experts and/or present scientific evidence in courts of law. The course provides information about how accredited crime laboratories control quality, ensure the reliability of results, and work to maintain a high level of customer satisfaction and confidence in the reliability of laboratory services. It is recommended, but not required, that users have taken the course; An Introduction to the Crime Laboratory - Understanding its Role and Purpose before attempting this course.

By the end of this course, you should be able to:

• Evaluate the work of a scientific expert
• Name the two types of scientific analyses
• Name the international body that governs crime laboratory accreditation
• Recognize authoritative documents and court rulings critical to forensic science
• List five warning signs signaling problems in a crime laboratory

If you know of a legal professional who may be interested in taking this course, please direct them to: https://www.forensiced.org/training/viewcourse.cfm?moduleid=fd2f9c6-4d9e-4e7c-a6fd-c5301474a49d. In some states, this course has been approved for 1 hour of CLE and MCLE credits (https://www.forensiced.org/training/clestates.cfm?cid=1128152721).
