President Message

Colleagues,

Thank you to everyone who attended the 2016 ASCLD Symposium for such an INCREDIBLE week! Many of you provided positive feedback and told us that we hit the mark of delivering high quality, actionable content and tools that you can take back to your labs and implement. The final count was more than 300 attendees, 55 vendors, and more than 200 people attending one of the 10 workshops. Thank you again to the amazing team of ASCLD Board of Directors, symposium planning committee, Kinsley Meetings, and our many speakers that all worked together to create this success.

If you attended the symposium and have not yet completed the Overall Symposium Survey, please do so. We value your input and use it every year to determine where we can make improvements. You can find it in the symposium app or view in in your web browser at: <https://www.surveymonkey.com/r/SPHJK87>

During the symposium, the ASCLD members elected 3 new Board members. We would like to introduce Brooke Arnone with the Arizona Department of Public Safety (Phoenix, AZ), Christian Westring with NMS Labs (Willow Grove, PA), and Tim Scanlan with the Jefferson Parish Sheriff's Office (Baton Rouge, LA) as your newest board members.

The ASCLD Board of Directors also elected new officers during the week. Your new President-Elect is Ray Wickenheiser, Cecilia Doyle will remain as your Secretary, and Andrea Sweich will remain the organization's Treasurer.

The ASCLD Board of Directors will now turn our attention to the newly published Strategic Plan. We have some pretty lofty goals that we are aiming for this year. It will take a lot of hard work, but I know our Board is up for the challenge and I know we will have a whole host of volunteers ready to help us achieve them. It's truly an exciting time to be an ASCLD member and I'm profoundly honored to be your incoming President.

Quote from the symposium: "Do things right, and do the right things."

Kindest regards,
Jeremy Triplett
ASCLD President

3-2-1 Bylaws passed the 2016 Symposium:

SECTION 2. ELIGIBILITY & COMPOSITION

Eligibility for nomination and election to the Board of Directors includes the following three requirements:

- ASCLD Regular Membership for 3 years
- Attendance at two ASCLD Symposia as a Regular Member
- Volunteer service on one committee or at one event.

The Board of Directors shall consist of twelve (12) regular Directors, elected from the regular members of the Corporation.

In addition, there shall be, two (2) non-voting ex-officio Directors, one (1) who shall be the Executive Director of the Corporation and one (1) who shall be the immediate past President of the Corporation. If the immediate past President of the Corporation has not completed their full four year term of service on the Board at the completion of their term as President, they shall retain their voting rights for their full four year term. No two regular Directors of the Board of Directors shall be from the same business, corporation or agency.

Forensic Science Policy & Management Volume 7, Issues 3-4 are now available at www.tandfonline.com/toc/ufpm20/current. New articles include:

- Leadership Decisions Influencing Medicolegal Death Investigation: "We wear a lot of hats." [Stacy A. Drake](#), [Eileen Giardino](#), [Angelo Giardino](#) & [Kurt Nolte](#)
- Up from "Arts and Crafts": Division of Labor in Forensic Science Laboratories, [William P. McAndrew](#) & [M. Garrett Roth](#).

Access to the journal comes free with your ASCLD membership. At the journal website, look for the "Sign in" at the top of the page. Submissions are requested from professionals, academics, scholars, and policy makers from science, law, and government. Information for authors can be found by clicking "Submit" at the left of the journal webpage. Questions about the journal can be sent to max@forensicintelligence.us or siegel.jay@gmail.com.

Forensic Training

Professional Orientation School for New Crime Lab Scientists - ONLINE!

John Collins with the Forensic Foundations Group is announcing 3 online **Professional Orientation**

Ron Smith And Associates, Inc.
is your #1 source for:

- Forensic Evidence Training**
- Forensic Consulting Services**
- Backlog Reduction/Elimination Services**
- Attorney Services**
- Multi-Level Competency Testing for LPE's**
- Proficiency Testing for LPE's**
- ISO Accreditation Mentoring**

Need a custom solution? RS&A is the answer!

Research Reports

These research reports have been submitted by the National Institute of Justice (NIJ) especially for their relevance to crime laboratory activities. ASCLD has not reviewed nor does it necessarily endorse the findings of this research.

[New Solicitation: DNA Capacity Enhancement and Backlog Reduction \(CEBR\) Program](#)

NIJ is seeking proposals for funding for the FY 2016 DNA Capacity Enhancement and Backlog Reduction (CEBR) program. This program provides funds to eligible States and units of local government with existing crime laboratories that conduct DNA analysis to process, record, screen, and analyze forensic DNA and/or DNA database samples; and to increase the capacity of public forensic DNA and DNA database laboratories to process

Schools for New Crime Lab Scientists : Beginning on May 2, May 10, or July 20. Maximum 20 students per school.

Each school is comprised of 8, 2-hour online sessions over 4 weeks with a final examination. Please visit www.forensicfoundations.com/scheduled-workshops to view the schedule and/or register. Students should first register for free as a "Friend of the Group" to qualify for the discounted \$245 registration fee. Please call John at [\(517\) 803-4063](tel:5178034063) if you have any questions.

Houston Forensic Science Center

The Houston Forensic Science Center has rescheduled the following two courses to take place later on this year:

IAI Crime Scene Certification Exam Preparation: May 2-6, 2016 - rescheduled

IAI Crime Scene Certification Exam Preparation: CSCSA Level: May 16-20, 2016 - rescheduled

May 23, 2016 [Intermediate Latent Print Comparison](#)

June 15 - 17, 2016 [Palm Print Comparison](#)

Thank you for your continued support, and please contact me via email or by phone ([713-929-6760](tel:7139296760)) should you have any additional questions.

Law Enforcement Innovation Center

Expert Witness Online Training

Course Description:

- Factors that influence the selection of an expert
- The importance of investigating an expert's credentials
- How to make an informed decision of an expert's credibility
- Legal standards of admissibility of scientific evidence
- Attorney's ethics in dealing with experts

Ron Smith & Associates Training

National Forensic Quality Manager Training Academy

It is truly amazing that, until now, there has never been a national training academy specifically designed for Quality Managers. Forensic Quality Managers have been expected to learn from "on the job" training that they may receive from a variety of sources, but none of this training has been consistent in the industry. Organizations like the Association of Forensic Quality Assurance Managers have been

more DNA samples, thereby helping to reduce the number of forensic DNA and DNA database samples awaiting analysis. The deadline for applications under this funding opportunity is May 23.

[Research and Evaluation in Support of the Recommendations of the President's Task Force on 21st Century Policing](#)

NIJ is seeking research proposals to support the recommendations of the President's Task Force on 21st Century Policing, this includes research on reducing DNA backlogs. Specifically, NIJ is interested in receiving innovative proposals for research designed to evaluate the efficacy of the protocols that police and investigators can use to triage DNA evidence collected at crime scenes and submitted to forensic laboratories against metrics such as the average turnaround time per case for a forensic analysis; the burden on police investigations with respect to time and effort; how cases are prosecuted; and the number of DNA profiles uploaded into the National DNA Index System (NDIS). The deadline for applications under these funding opportunities is May 17.

[New Solicitation: Visiting Fellows Program](#)

NIJ is seeking proposals for innovative research, scholarship, and/or knowledge-building projects addressing high-priority criminal justice issues as part of the 2016 NIJ Visiting Fellows Program. Awards made under the NIJ Visiting Fellows Program will bring leading researchers, practitioners, and/or others into residency at NIJ to make important scholarly and policy contributions with practical application to the criminal justice field, and to work with the NIJ Director, staff, and relevant NIJ stakeholders to help shape the direction of NIJ's research programs. The deadline for applications under this funding opportunity is May 11.

[Ancestry Estimation in Forensic Anthropology: Geometric Morphometric versus Standard and Nonstandard Interlandmark Distances](#)

Drs. M. Katherine Spradley and Richard L. Jantz, NIJ-supported researchers, have published a new article in the Journal of Forensic Sciences. This study compares the discrimination ability of standard cranial measurements and 3D digitizers for cranial landmark data collection and geometric morphometric (GM) analyses. The nonstandard interlandmark distances generated the highest classification rates for females (90.5%) and males (88.2%). Using nonstandard interlandmark distances over more commonly used measurements leads to better ancestry estimates for our current population structure.

[Learn about how to become a paid peer reviewer, and share this opportunity with colleagues](#)

huge in taking up the mantle of providing various workshops and classes, but it was never intended to take the place of a complete training program. With forensics being under such intense scrutiny these days, agencies who perform forensic analysis must ensure that their work is performed under the guiding principles and standards which are now becoming more clearly defined each day. We, in the forensic industry, have not embraced Quality Management training as aggressively as we should.

Ron Smith & Associates, Inc. is known as one of the premier forensic training companies in the world. Our teams of subject matter experts and support staff have successfully designed and offered hundreds upon hundreds of highly sought after training opportunities all across the United States and abroad. RS&A is now ready to take on the challenge of building a National Forensic Quality Manager Training Academy which will soon become the cornerstone of forensic training in this very critical area.

June 20, 2016 through July 1, 2016 in Pearl, MS. Academy tuition is \$2,500.00 with only 25 seats available.

Click [here](#) for complete academy details and to complete an academy application today!

National Footwear & Tire Track Training Academy
Coming Fall 2016

RS&A now offers a Footwear and Tire Track Training Academy which includes 4 weeks of footwear examination training followed by 2 weeks of tire track examination training. Applicants can elect to complete the entire 6 week footwear and tire track academy or break it up and choose only the 4 weeks of footwear training or the 2 weeks of tire track training. The academy graduates of this 6 week program will learn the skills necessary to complete supervised footwear and tire track casework and will be ready to apply for a IAI Footwear Certification once time requirements have been met. It is scheduled to begin Fall of 2016 in Hattiesburg, MS at the Camp Shelby Joint Forces Training Center. Only 20 academy applicants will be selected to attend. For the entire 6 week footwear and tire track academy the cost is set at \$11,250.00. The 4 week footwear only academy is set at \$7,500.00 and the 2 week tire track only academy is \$3,750.00. Cost includes academy instruction, room and board, and 3 meals per day according to training selection.

[OC DNA database closing cases](#)
[OCRegister](#)

In 2008, an unknown man approached a theater manager using a fake business card to identify himself as a police detective, claiming he was investigating a crime. He then pulled a gun and forced the manager to give him \$15,000 from the safe. He fled, but left a rubber glove behind which was analyzed for DNA.

The crime remained unsolved until 2011, when that same individual was charged with a misdemeanor of having a false vehicle registration. As part of the disposition of his misdemeanor case, he submitted a DNA sample for our local Orange County District Attorney DNA Database. That sample matched the DNA from the rubber glove left at the theater. He was charged with the 2008 robbery. He plead guilty and was sentenced to seven years in state prison.
