

AMERICAN SOCIETY OF CRIME LABORATORY DIRECTORS

"Excellence through leadership in forensic science management"

## President's Message

July 31<sup>st</sup> I participated with Gerry LaPorte from NIJ and Past-President Laura Sudkamp on a National Governor's Association briefing regarding sexual assault kit inventories, tracking, and lab processing. As announced in a previous CLM, Director Sudkamp will be leading the initiative for ASCLD this year to address sexual assault kit tracking. It was a pleasure to present information from Idaho as Director Sudkamp shared information from Kentucky. We welcome any states struggling with sexual assault kit inventory or tracking to reach out to us for resources and help. We are eager to kick off this initiative. We hope to partner even more with the NGA on this and other initiatives.

#### UNIFORM LANGUAGE FOR TESTIMONY AND REPORTS

The Department is in the process of developing guidance documents and reports of its forensic experts. These documents, known as "Testimony and Reports," or ULTR documents, are designed to improve the submission of scientific statements by the Department's forensic reports or testifying.

#### Invitation to Participate in a Forensic Science Study

I am a professor of psychology at Iowa State University, and the Principal Investigator of a federally-funded research study that aims to quantify the validity of cartridge case ... Study

August 1<sup>st</sup> I met with the International Association for Identification (IAI) at their annual meeting in San Antonio. It was a great pleasure to represent ASCLD to their Board and share ideas about how our organizations can work together even more effectively. We discussed participation in the US ISO TAG 272, the ASCLD stress and trauma working group, the ASCLD accreditation initiative, and our mutual interests in national advocacy efforts. ## Crime Lab Minute Sponsors

[ANAB](http://www.anab.org)

Since 1995, JusticeTrax has produced a suite of products geared specifically toward the law enforcement and forensic community. Over the years, our applications have gained increasing acceptance among city, county, state and federal law enforcement agencies. Our applications are designed by forensic scientists and are the most comprehensive case management tools available.

With installations ranging from small, single-site laboratories of five users, to extremely large multi-site installations with 500+ users, we are honored to serve some of the most sophisticated crime laboratories in North America, Australia, the Caribbean, and the Middle East. Of these 175+ laboratories, greater than 95% are accredited to the ISO/IEC 17025 International Standard.

JusticeTrax is an ISO 9001:2015 certified company.
