

## AMERICAN SOCIETY OF CRIME LABORATORY DIRECTORS

"Excellence through leadership in forensic science management"

### President's Message

ASCLD congratulates the US TAG TC 272 on the publication of the first ISO standard in forensic sciences! I want to personally thank the US TAG TC 272 Chair Erin Forry and Secretariat Jody Wolf as well as former Chair Kermit Channel and former Secretariat Soraya McClung for all their leadership on this initiative. Further, I want to express appreciation to the many ASCLD members participating on the TAG, including Erin Forry, Jody Wolf, Jan Girten, Jay Henry, Catherine Knutson, Laurel Farrell, Pam Sale, Lori Nix, Kermit Channel, and Soraya McClung

The Scientific Working Group for the Analysis of Seized Drugs (SWGDRUG) has posted the DRAFT document "SUPPLEMENTAL DOCUMENT SD-7 Construction of an Analytical Scheme" for review by the forensic science community. SWGDRUG has also posted updates to the core recommendations for "Part IIIB-Methods of Analysis/Analytical Scheme for Identification of Drugs or Chemicals" for community review as well. Both documents can be found at <http://www.swgdrug.org/pending.htm>

Responses from the community will be collected until October 13, 2018. - [Bulletin](#)

[Special Edition - Opioid Bills](#)

Please find pending legislation regarding the opioid crisis. This is NOT an appropriation of funding and these bills are only the ones that have passed one body of the Congress as of June 22, 2018. The Congress intends to roll many of these bills into a single Opioid Bill that will move forward

These research reports have been submitted by the National Institute of Justice (NIJ) especially for their relevance to crime laboratory activities. ASCLD has not reviewed nor does it necessarily endorse the findings of this research.

## Crime Lab Minute Sponsors

[ANAB](#)

Since 1995, JusticeTrax has produced a suite of products geared specifically toward the law enforcement and forensic community. Over the years, our applications have gained increasing acceptance among city, county, state and federal law enforcement agencies. Our applications are designed by forensic scientists and are the most comprehensive case management tools available.

With installations ranging from small, single-site laboratories of five users, to extremely large multi-site installations with 500 users, we are honored to serve some of the most sophisticated crime laboratories in North America, Australia, the Caribbean, and the Middle East. Of these 175+ laboratories, greater than 95% are accredited to the ISO/IEC 17025 International Standard.

JusticeTrax is an ISO 9001:2015 certified company.
