ABOUT THE

FULTON COUNTY MEDICAL EXAMINER OFFICE

The $4 million Fulton County Medical Examiner’s office (FCME) includes 34,000 square feet of operational space, and is located in Atlanta, the largest city in Fulton County with a population of just over 1 million. The office is centrally located just outside downtown in the municipal area.

The FCME performs approximately 800 autopsies per year for 15 cities and other areas served by special law enforcement agencies, including Metropolitan Atlanta Rapid Transit Authority (MARTA) and college police forces. The office encounters a wide variety of cases, including traumatic deaths, toxicological deaths, and natural deaths. Affiliation with the Emory University and Morehouse School of Medicine allows consultations in many pathology subspecialties, including pediatric pathology, neuropathology, and all of the surgical pathology subspecialties, as well as access to medical microbiology and clinical chemistry.

OTHER HIGHLIGHTS INCLUDE:

- Accredited by the National Association of Medical Examiners since 1978
- Consulting odonatologist certified by the American Board of Forensic Odontology
- 6 ABMDI registered death Investigators
- 8 experienced Forensic technicians
- 2 board certified Forensic pathologists
- Teaching institution with a forensic pathology fellowship program, rotating Emory University pathology residents, and medical students from Morehouse School of Medicine and Emory University
- Recognition from the Atlanta Fire Rescue Paramedic Program in December 2019 for allowing the firefighter recruits to observe autopsies in our office.
