Queensland  
Government

# Join the team

Working with Professor Linzi Wilson-Wilde OAM and other leading scientists, you'll make a difference to communities and the Queensland criminal justice system.

Forensic Science Queensland is a dynamic, rewarding place to work. Committed to best-practice, innovative forensic science, we offer a place for you to challenge yourself, grow your career and be among the best.

Forensic Science Queensland boasts a dedicated innovation team and a dedicated quality and training team, who along with a dedicated corporate support team, are working to assist forensic experts to deliver service excellence in a collaborative environment.

## Brisbane, the heart of sunny Australia

Brisbane is a vibrant city with a growing population of over 2 million people, with world-class industrial capabilities supporting its growing reputation as an international investment destination.

It is also a major centre for forensic science, with the Forensic Science Queensland laboratory located just outside of the city.

Brisbane offers a relaxed, urban lifestyle, with weekend getaways only a short drive away – including coastal escapes and rural retreats. With days of year-round sunshine and clear blue skies, locals say that it's "beautiful one day, perfect the next".

**Think this exciting opportunity could be for you? We'd love to hear from you.**
